THIRD DAY HAS PASSED

And No News Arrived From Spain's Capital.

THE OLD FEAR STILL THERE.

Ministers Seem to Dread a Popular Uprising.

THIS TO BE GUARDED AGAINST.

Serious Trouble Is Expected In the Philippines, Since the Insurgents Threaten to Annihilate the Monks, Nuns and Priests.

Washington, Aug. 3.—Although Tuesday was the third day since the president delivered to M. Cambon the terms offered by the United States to Spain as a basis of peace, no answer came from Madrid, and in fact was scarcely expected.

The press reports of the long cabinet meeting held in the Spanish capital indicated that the Spanish cabinet was unprepared at least to accept the terms offered at once, and without appearing to attempt to secure some modification in the interest of Spain.

It is felt that such a course is absolutely imposed upon the Sagasta ministry by the existing conditions in Madrid.

Nevertheless it is not to be seen that the president cherishes the slightest intention of consenting to any essential modification of the conditions, and the slight delay that has occurred in making answer is not believed to be discouraging nor to be taken as a sign of the purpose of the Spanish cabinet ultimately to reject the proposition.

SERIOUS TROUBLE EXPECTED.

The office is here make no concealment of their apprehension of serious trouble to follow the execution of our program in regard to the Philippines.

The reports of the military and naval commanders of late have contained warnings of expected conflicts with the insurgents and no surprise will be felt at the receipt of news of an outbreak at almost any moment.

The United States government feels that it has assumed moral obligation toward not only the foreign residents at Manilla, but toward the unprotected classes of the Spanish community—women, children, nuns and priests.

Therefore, when intimation came that the insurgents were threatening the lives of some helpless monks, orders were sent to the American military commander to look into the matter and to act in the interest of civilization and humanity.

As, according to report, the insurgents have shown particular hostility toward the monks it is a reasonable expectation that before long a collision will have occurred between themselves and the American troops if the latter undertake to interfere in the execution of the vengeance of the insurgents.

NOT EXPECTED TO FIGHT.

Some reports, which have been received from Porto Rico, but which for political reasons cannot be made public, have given great satisfaction to the officials of the war department since they go to show that the resistance which can be made by the Spanish troops will be very little, and it is even possible that General Miles will achieve an almost bloodless victory.

In fact it has been suggested with some plausibility that the Madrid government, realizing the impenetrability of peace and the lack of loyalty toward the monarchy of the mass of Porto Ricans, has allowed the Spanish garrisons of the island to understand that they are not expected to sacrifice their lives in useless resistance to superior force, so that all that is to be expected is a rather formal opposition to the progress of General Miles' triumphal march across the island.

MAY BE COURTMARTIALS.

General Shafter's health reports state that he is now caring for over 6,000 sick people, including Spanish soldiers, many of whom were found to be very ill.

The task is a formidable one, and the attempt to care for all hands probably explains in a measure the lack of adequate preparations of the transports employed in bringing home some of the wounded and sick.

The conditions on these boats were found to be so shocking as to demand an immediate official investigation, which was begun, and some court-martials may be looked for in high places unless it can be shown clearly that the lack of preparations was unavoidable.

FIREPROOF WOOD TO BE USED.

Fireproof wood is again in full fa-

vor in the navy, Secretary Long having issued an order requiring its use for battleships, the only place from which it had been excluded by preceding orders on account of some commanders' reports of dampness.

The secretary has decided that the battle of July 3 has removed any doubt as to the importance of protecting warships from fire by the heat means within reach. So he will appoint a board to consist of a line officer, a naval constructor and a chemist to examine reports coming from officers commanding ships fitted with fireproof wood.

NO CHANGE MADE.

Secretary Long stated that no change had been made in the orders as to Watson's squadron, so that if the Brooklyn is to be attached thereto that fact is not known at the department. It is much more likely that the Brooklyn is coming north, as it was reported to the department a long time ago that she was the first vessel of the squadron to need an overhauling and cleaning.

Shafter's Sanitary Report.

Santiago, Cuba, Aug. 3.—Sanitary report for July 31: Total sick, 4,255; total fever, 3,164; new cases of fever, 653; cases of fever returned to duty, 722. Deaths on July 30: Private Bergh, troop F, Sixth cavalry, malarial fever; Private Edward Sutton, troop G, Ninth cavalry, malarial fever; Private Staffings, company B, Twelfth infantry, dysentery. On July 31: Private J. Kosling, company H, Thirty-third Michigan, yellow fever; Private Samuel J. Powers, troop F, Second cavalry, yellow fever; Sergeant Charles A. Coons, company H, First infantry, typhoid malaria; Private Harry Hague, company H, Eighth Ohio, malarial fever; Private Louis Kocarnik, battery F, Fourth artillery, gunshot wound of chest and heart, evidently suicidal; Private F. J. Vivian, company D, Thirteenth Michigan, remittent malarial fever; Private John A. McDonald, company D, Thirty-fourth Michigan, remittent malarial fever. SHAFTER.

No Extra Session.

Washington, Aug. 3.—There will be no extra session of congress, though the senate will have to be called together for prompt ratification of the treaty of peace if the present plans of the president prevail. It is stated at the White House that unless there should be some extraordinary development the house will not meet until it convenes in regular session next December. This statement, made on the authority of the president himself in answer to personal inquiries, is in contradiction to reports current among public men that congress will soon meet to draft legislation to meet the demands that will follow the close of the war, as well as give formal assent on the part of the session to the treaty.

News of Fourth Expedition.

San Francisco, Aug. 3.—The steamer Doric brought news of the arrival at Honolulu of the fourth Manila expedition. The Doric left Honolulu last Monday. The transports arrived there the day before with all on board well, and on Monday the boys in blue were ashore and were given a royal reception and a grand feast. The fourth expedition left here July 16 and reached Honolulu without mishap to either of the vessels.

Some One to Be Called Down.

Washington, Aug. 3.—An effort will be made by the war department to ascertain the official at Shafter's headquarters who is responsible for dispatching to the United States transports loaded with soldiers, and which are alleged to be unfit for the work to which they are put. With this end in view, Surgeon General Sternberg has sent a dispatch to Major Havard, the chief surgeon with Shafter's army.

Scattering Force Mobilized.

San Francisco, Aug. 3.—The recruits of the First Colorado, Second Oregon and First Nebraska, by order of Brigadier General King, have been added to the command of Lieutenant Colonel Barnett, making, with the recruits of the Tenth Pennsylvania, a force of 10,000 men. This action was taken in order to mobilize the scattered Camp Merritt forces.

A Japanese Held Up.

San Francisco, Aug. 3.—Advices from Yokohama by the steamer Doric report that the Japanese steamer Onsan was fired upon by one of the vessels of the third expeditionary fleet from San Francisco on the night of June 29. Two shots were fired at the Japanese vessel. The vessel stopped at the first shot, but a second was sent across her bows. She was inspected and allowed to proceed.

Arrived at Honolulu.

Honolulu, July 26, via San Francisco, Aug. 2.—The transports Peru and City of Puebla arrived from San

Francisco early on the morning of the 23d. The voyage was uneventful. There were no deaths, and but little sickness among the men. President Dole, with his cabinet and Minister Hatch, received Major general Otis at the government building.

Spain's Reply En Route.

Madrid, Aug. 3.—The government's reply to the American peace terms left here Monday evening. The government believes that the nature of the negotiations requires the greatest secrecy and that their success will depend upon the observance of the most absolute reserve here. Official silence, therefore, is complete.

Sick Soldiers Transferred.

New York, Aug. 3.—The quarantine boat James W. Wadsworth transferred 79 sick soldiers from the transport Concho to Swineburne island. Among them was Captain William Paulding of the Tenth United States Infantry. Two men were left on board the Concho.

Will Leave Friday.

San Francisco, Aug. 3.—The transports Charles Nelson and The Lakme will get off some time this week, probably Friday.

Watching For Paymasters.

Chickamauga, Ga., Aug. 3.—The two main subjects of interest at Camp Thomas at present are the expected arrival of the paymasters, and the expedition which it is reported is being arranged in Washington for Major General Wade. The paymasters are expected to get in at an early hour and to begin their work immediately. The payrolls of all the regiments are now complete, and there will be little delay in making the payments. The total to be paid will be near \$1,500,000.

Hopeful View Taken.

New York, Aug. 3.—President T Estrada Palma of the Cuban junta when questioned about the estrangement between General Garcia and General Shafter, said: "There is no danger that the Cubans will permit a slight misunderstanding of one of their countrymen—even of a general—with an American, to affect the successful cause of the campaign. I know General Garcia, as well as the Cubans, has too deep a sense of gratitude toward the United States to harbor slight or fanciful wrongs toward their benefactors."

Some Changes Made.

Washington, Aug. 3.—Lieutenant Commander E. D. Taussig has been detached from the Norfolk navy yard and ordered to command the gunboat Bennington, which is under orders to proceed to the Hawaiian Islands, relieving Lieutenant Commander J. F. Moser, who is ordered to command the Albatross. Lieutenant Commander C. K. Curtis has been detached from command of the Albatross and ordered to the Bennington as executive officer.

Evidences of a Clash.

New York, Aug. 3.—A cablegram from Cavite reports that the correspondent has spent two days in interviewing insurgent leaders. As a result, the correspondent says he discovered evidences of jealousy of the American invasion. There are some indications of a clash between General Merritt and Aguinaldo.

Wants Fifty Thousand Men.

San Francisco, Aug. 3.—General Merriman received word from the war department that General Merritt had asked that his command be increased from 20,000 to 50,000 troops, in order to be able to meet any emergency which may arise on account of the hostile attitude of Aguinaldo and the insurgent forces.

Furloughs Granted.

Washington, Aug. 3.—Adjutant General Corbin, at the direction of the secretary of war, issued an order granting sick and wounded soldiers at hospitals, when able to travel, one month's furlough and transportation to go to their homes.

Fever Patients Removed.

Honolulu, via San Francisco Aug. 3.—The transports Peru and City of Pekin arrived on the 23d. Three men with typhoid fever were removed from the ships to the hospital. Lieutenant Hunt of the Fourteenth infantry is one of the sick.

Postal Order Modified.

Washington, Aug. 3.—Postmaster General Emory Smith issued an order modifying a former one prohibiting the dispatch of mail to Spain or her dependencies, so as to permit postal communication with Ponce, Porto Rico.

The Solace Leaves.

New York, Aug. 3.—The hospital steamer Solace left the navy yard bound out. It is said she goes to San Tiago first, and then to Porto Rico.

Forced the Blockade.

Madrid, Aug. 3.—It is reported here that two Spanish steamers forced the blockade in Cuban waters and were attacked by the American cruisers.

MURDEROUSLY ASSAULTED.

Two Women and a Little Girl Are Nearly Killed.

Baltimore, Aug. 3.—A mysterious assault, which may result in a triple murder, was made upon a family residing in the lower part of the city.

The victims are Mrs. Hannah Lillis widow, 33; Winnie Lillis, 7, and Mrs. Bessie Whettler, 29.

Mrs. Whettler, who is separated from her husband, boarded with Mrs. Lillis, who, with her three children, lived at 211 South Lemmire alley, near the wharves. Shortly after daybreak, the police heard cries of "murder," and hastening found Mrs. Whettler and the women and the little girl bleeding and unconscious from wounds about the head, evidently inflicted with the blunt end of an ax. The only persons who were able to furnish any information regarding the affair were two Bohemians, who claim to have seen a negro about the premises.

That Chinese Railroad.

Shanghai, Aug. 3.—According to a dispatch from Peking under date of July 31, Yang Wing, a Chinese graduate of Yale, has obtained an extension of time for his concession for the Tien Tsin-Chin Kiang railroad, alleging that he has received the support of an English syndicate to place the necessary capital, \$25,000,000. But it is said that Hou Yu Fen, one of the directors general of the Chinese railroads, in the face of Russian opposition to the loan, has broken off negotiations with the Hongkong bank, which proposed to supply the capital for building an extension of the Tien Tsin-Shan Hailkwan railroad to Ny Chwang. The latter is distinct from Yung Wing's concession.

Results In Alabama.

Birmingham, Ala., Aug. 3.—Sixty out of the 66 counties in the state have been heard from as to the election, though the returns from none are as yet complete, owing to the slow method of counting and returning. Reports from the partial returns received indicates a Democratic majority of over 50,000. Jefferson county gives a Democratic majority of about 4,000. In the city of Birmingham 2,000 votes out of a registration of 3,500 were polled.

Drove a Golden Spike.

Bellefontaine, O., Aug. 3.—The golden spike that holds to the ties the steel rails that connect by railway Columbus and Detroit was driven by Governor W. V. Marquis, president of the Columbus Northwestern Railway company, under which name the road was built. The division running from Lima, O., to Peoria, O., through this city, will be known as the Columbus division.

Bismarck's Funeral.

Friedrichsruhe, Aug. 3.—Pastor Westphal of the Brunstorf conducted the Bismarck funeral services according to the rites of the Reformed church. The text, in compliance with Prince Bismarck's desire, was from the first epistle of Paul, the apostle, to the Corinthians, chapter xv, verses 53 to 57.

Rather Serious Wreck.

Winslow, Ariz., Aug. 3.—In a train wreck on the Santa Fe near Holbrook, Ariz., Ray ooding of Kingman was killed and 15 others were injured, one of whom will die. The disaster was caused by a broken rail. Four cars went over two Pullmans, one chair car and a coach.

Receipts and Disbursements.

Washington, Aug. 3.—Assistant Secretary Howell made public the following statement in regard to the receipts and disbursements of the government during the last fiscal year: "Receipts, including Pacific railroad items, were \$105,321,335. Expenditures, including Pacific railroad items, \$48,368,582, leaving a deficit of \$38,047,247."

Sensation Created.

Berlin, Aug. 3.—A sensation was created by the emperor during the afternoon, who telegraphed countermanding the Bismarck obsequies, which were to take place in front of the Reichstag building, and ordering instead that mourning services be held in the Emperor William Memorial church.

Taking the Census.

Ardmore, I. T., Aug. 3.—The Dawes commission arrived here and began taking a census of the Indians. This is the last roll of the Indians preparatory to an allotment of their lands.

Committees Appointed.

Galveston, Aug. 3.—The Democratic state convention, after appointing committees on order of business, credentials and platform, adjourned for the day.

Tampa, Fla., Aug. 3.

Contrary to expectation the transport Arkansas did not sail for Porto Rico. General Rogers had all of his heavy artillery on board, but there is still some other loading to be done.

SPAIN HAS ACCEPTED,

But the Dons Are to Be Kept In Ignorance.

PEACE IS AT LAST IN SIGHT.

Castilian Pride Descends From Its Loftiness.

IT IS ABOUT ALL SPAIN HAS LEFT

By Accepting Uncle Sam's Terms She May Save Enough Territory to Enable Her to Change From Barbarity to Civilization.

Madrid, Aug. 3.—Spain accepts the principal conditions of peace as set forth by the American government and only the peace details are needed to cause all hostilities to cease at once.

A peace delegation will be chosen at once to confer with the representatives of the United States.

The peace conditions set forth by President McKinley were discussed at length by Minister Sagasta, and at the conclusion it was given out officially that the terms of the United States would be accepted.

There are one or two amendments in the proposition of the United States that Spain will ask to be made, and if this is done peace will be declared at once.

Will Be Kept Secret.

Madrid, Aug. 3.—The government has accepted the principle of the American conditions; but the acceptance will not be made public until inquiries to Washington on matters of detail have been settled, thus rounding off the preliminary basis.

WEDNESDAY, AUGUST 3, 1898.

For Kentucky.—Thunder showers and probably cooler in central and eastern portions, southerly winds.

A DISPATCH to the Courier-Journal from McKee, Ky., reports the people of Jackson County highly indignant at the recent action of the State Board of Health in establishing a quarantine against that county upon the report of a Dr. Smock, who is the local representative of the State Board. Smock's statement is declared to be "incorrect in every particular" and is "based upon hearsay of an unreliable character." Smock reports one hundred cases of small-pox, while others assert that altogether there have not been more than thirty, and one prominent and influential minister declared from the pulpit that there had been no small-pox at all! Dr. Smock stood his ground, however, and demanded ten dollars a day for his services—the order to be given by the County Court in advance. The Secretary of the State Board of Health has just made a circuit of inspection in that region, but did not visit Jackson County, because his presence, he says, "would have done no good." If they would not listen to Smock, they would not listen to him. Dr. McCormick says:

In making the circuit of the several county seats I have heard some of the stories that are being circulated in Jackson County. They not only malign the State Board of Health and deny the existence of small-pox within their borders, but are loud in their denunciation of Dr. B. S. Smock, whom the State Board sent to McKee twice to investigate the epidemic. They say that he does not know anything about small-pox and did not stay in the county long enough to find out anything about it. It is reported that he told another physician in McKee that he could make \$1,000 each out of the county and all kinds of things detrimental to his character.

But why "detrimental" to Smock's character? If there are one hundred cases of small-pox in the county to be treated by Dr. Smock at the rate of ten dollars a day, the two doctors might easily extract one thousand dollars each out of the County Court. Indeed, it is very creditable to Smock that he would consent to "divide." But there are those who believe that as long as County Courts can be induced to "put up" in this way, the small-pox phantom will not be easily downed, and that the coming century with its carefully amended sanitary methods (loose quarantines and liberal county orders) will open a career of imperial expansion for the long neglected small-pox germ.

STATE'S FINANCES.

Over \$300,000 Now in the Treasury and Franchise Taxes Coming in Fast.

A Frankfort dispatch says that the State has now over \$300,000 in the Treasury and money is coming in fast from banks and corporations on franchise taxes.

There are now about \$800,000 outstanding warrants. These will have been liquidated by the meeting of the next Legislature, and a movement is on foot to continue the present rate of taxation, 52 cents on each \$100, one year longer than the present law calls for in order to raise funds for a new capitol building.

This idea is known to be favored by many members of the present Legislature and a vigorous fight to this end will be instituted. One-half of the hold-over members of the State Senate are said to be committed to making an appropriation for a new capitol and many prospective Representatives favor the move.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alterative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and give a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

KEHOE LEADS.

The Courier-Journal's Figures on the Democratic Contest For the Congressional Nomination.

[Courier-Journal.]

The contest for the Democratic Congressional nomination in the Ninth district is becoming very interesting and assuming new phases daily. At present there are no less than seven avowed candidates, namely: Justice, Williams and Hager, all of Boyd County; Cole, of Greenup; Powers, of Carter; Kehoe, of Mason, and Sharp, of Bath. It is generally figured that Kehoe will carry Mason, Bracken, Lewis and Fleming, with a total of thirty-eight votes. Sharp is given Bath, Nicholas, Harrison, Robertson and Rowan, with thirty-seven votes. Carter will probably instruct for Powers first and Sharp second, with eight votes, leaving Boyd, Lawrence and Greenup, composing a Senatorial district, with a total of thirty-five votes, to be divided between Cole, Justice, Williams and Hager. As Cole lives in Greenup, the eight votes of that county can safely be conceded to him. There is bitterness between the three candidates from Boyd County, which utterly destroys the chance of either, though the votes of their home county and of Lawrence will surely be cast, temporarily at least, for some one or two of the trio.

The rule dropping the hindmost candidate will rapidly bring things to a climax between Sharp and Kehoe, the two leading candidates. With Carter's eight votes added to his original strength Sharp would have forty-five, lacking a fraction less than nine votes of the number necessary for the nomination, and these votes his friends believe he can secure, when needed, from Lawrence. His chances for securing additional votes from Boyd and Greenup, in the final struggle, are about the same as those of Mr. Kehoe.

The total vote in the convention will be 107, and the precinct meetings or mass conventions, as each county has the right to elect, will be held on Saturday, August 6th, and the nominating convention on Wednesday, August 10th, at Cynthiana.

The Democrats of the district are confident of victory in November, as Shadeford's majority last fall was something over 1,200. Divisions, dissensions and jealousies in the party alone were responsible for both of Pugh's victories.

These have disappeared, and the district will probably resume its normal position in the Democratic column.

KENTUCKY CROPS.

Drought Thoroughly Broke—Corn and Tobacco Looking Well—Weekly Report of the Weather Bureau.

The drought, of which there was so much complaint in the last bulletin, has been thoroughly broken, and in many localities, there has been entirely too much rain.

Corn has been greatly benefited, and is very promising in all sections. Roasting ears are plentiful, and a good yield of the early planted is already assured in many counties.

There is still much complaint concerning tobacco, but the crop generally shows improvement.

Hemp is more promising than at any time since the beginning of the season, and gardens, minor crops and meadows are doing very well.

The threshing of wheat and oats has been further delayed by rains, and in many localities the grains are sprouting in the shock and stack. A number of correspondents state that plowing for fall wheat has begun.

To Cleanse the System.

Effectually yet gently, when costive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Figs, made by the California Fig Syrup Company.

The other was Mrs. Margaret Scott also on sad mission to the death bed of her brother-in-law, Gen. John S. Williams."

Y. M. C. A. Matters.

Sunday afternoon the local Y. M. C. A. gave its patrons a rare treat. Professor W. T. Berry led the meeting. Rev. W. H. The former rendered in a finished and delightful way Gottschalk's sacred composition while the latter touched every heart by her sweet voiced interpretation of "O Rest in the Lord." These services each Sunday afternoon are certainly pleasant and those who stay away are the losers. Try going once and see if you are not.

Complexion Clearer.

[New York Sun.]

Bad complexions have sent more women to the grave than epidemics. Nothing frets a woman like a rough, muddy skin. A cureall for blemishes is certainly simple enough. It is this: Wash the face in very salty sweet milk every night and let it dry without wiping. A mixture made of one small tablespoonful of milk and a teaspoonful of salt applied to the most obstinate blemish of the skin will cure it almost like magic. This is the remedy prescribed by one of the best skin authorities in England, and it is said that the use of milk and salt is half the secret of the Englishwoman's smooth, beautiful skin.

KENTUCKIANS ENTERTAINED.

Royal Feast Spread By Mrs. John A. Miller, of Atlanta, In Honor of Some of the Visitors at the C. V. Reunion.

[Louisville Times.]

The most enjoyable feast given Kentuckians during the recent Confederate reunion at Atlanta was a real old-fashioned barbecue, served by Mrs. John A. Miller, to her husband and fifteen of his comrades, who were members of Company C, Ninth Kentucky cavalry, C. S. A. It was on the lawn surrounding Mr. Miller's handsome home, 130 Jackson street, and among the outsiders who enjoyed it were Brig. Gen. John H. Leathers and the members of the Confederate Glee Club. Maj. Austin, a field officer of the gallant Ninth, was an especial guest, and the following members of Company C were the recipients of Mrs. Miller's hospitality: Captain Ed. Taylor, Sergeant John E. Abraham, Corporal James Kerus, Privates John A. Miller, Tom Bradley, John D. Penn, Jesse Payne, Charles W. Meng, Peter Menaugh, Tom McEntyre, Joseph Betsy Miller, Milt Wallace, Mitch Neal, John Nesbit, Polk Forsythe and John W. Boulden.

Mrs. Miller had many of her personal friends present, and under the grand shade trees the old soldiers chatted together of the hundreds of incidents that occurred during the great war and listened to the songs of the Glee Club. Mrs. Miller's pretty daughter and handsome son did their best to make their father's comrades enjoy the event, and both were unqualifiedly successful.

Many years ago Mr. Miller was a citizen of Bourbon County. He now owns one of the largest horse and mule stables in the South, and is one of Atlanta's most prosperous citizens.

Mrs. Miller is a daughter of the late James H. Hall of this city. Captain and Mrs. Miller's guests were so delighted that they adopted the following resolution before leaving Atlanta:

"We desire to express our appreciation of the unbounded hospitality of our beloved comrade, his wife and family. This happy reunion will ever be kept in delightful remembrance."

"We leave for our old Kentucky home with a sincere prayer that heaven's choicest blessings may be theirs, assuring them that 'their people shall be our people and their God our God.'

School days will soon be here. Secure good photos of the children now. Remember a life-size portrait free with every sitting. First-class Cabinets at \$1 per dozen. Come, rain or shine.

Death Claims One of Lewis County's Best Citizens—The End Came Last Evening.

Deceased was born in the house in which he died. He was seventy-two years and seven months old, and was one of a family of fourteen children. Deceased was a brother of Messrs. Robert F. and Q. A. Means, of this city, he and the former being twins. Two children, a son and a daughter, survive.

ON LABOR DAY.

The Knights of St. John Arranging to Celebrate Their Anniversary at the Fair Grounds.

The First Battalion, Knights of St. John, of this State, is making arrangements to celebrate, on an extensive scale, its anniversary, in Maysville, on Labor Day, September 5th. An excursion will be run over the C. and O. from Covington, Newport, Bellevue and Dayton, and probably from points east of this city.

There are about 500 Knights in the battalion, and a big crowd is expected.

There will be a street parade, after which an entertaining program will be given at the fair grounds.

Fast Running on the C. and O.

The C. and O. flyer Friday afternoon was an hour late when the train pulled into the depot at South Portsmouth. The run to Maysville, a distance of fifty-three miles, was made in sixty-five minutes, the last three miles being made at sixty miles an hour, according to track mile. The usual time for this run is eighty-five minutes. The trainmen expected to almost make up the hour by the time Cincinnati was reached.

EAST LIMESTONE.

Mr. and Mrs. W. H. Williams entertained an interesting party of young folks Sunday last, those composing the party being Mr. G. C. Kelb, Mr. W. F. Simon, of Newport, Misses Draper and Teamer, Newport; Misses Sudle and Bertie Shepperd, Mrs. Annie Meaus, Mr. Thomas Boyer and Mr. Charles Bright, of Maysville. All pronounced it a pleasant day, and praised their hostess for an excellent dinner.

THE WORKMAN often eats his lunch on the same bench where he does his work. The office man turns his desk into a dining-table. Neither gets the out of doors exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion; disorders of the stomach, liver and kidney; biliousness, headaches, flatulence, heartburn, impurities of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. The "Pleasant Pellets" are tiny sugar-coated granules. They will perfectly cure the worse case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit, just think of what will best pay you.

Electric Park.

The show this week speaks for itself and is without a doubt one of the most entertaining ever presented to any park's patrons before. The Carmanella and Lucille act is out of the ordinary run of musical acts. They produce music from many curious instruments, while Mlle. Lucille's dancing is exceedingly clever. Armstrong and Porter were greeted with round after round of laughter for their new and up to the times jokes. Lew Seeker is still as funny as ever. Ten cents pays your admission and round trip car fare.

Attention, Cadets.

The St. Aloysius Cadets will meet at the Knights of St. John hall to-night at 7:30. Full attendance is requested. Business of importance.

LOUISVILLE TOBACCO MARKET.

Increased Offerings Last Week—Demand For Color Grades Active—Some Improvement in Value.

Furnished by Glover & Durrett, Louisville Tobacco Warehouse.

Sales on our market for the week just closed amount to 2,421 hds., with receipts for the same period 1,922 hds. Sales on our market since January 1st, amount to 74,714 hds. Sales of the crop of 1897 on our market to this date amount to 60,768 hds.

The offerings have been larger than for some time past, and the market has been quite changeable—at times animated and very satisfactory, then dull and easier. The demand for color low grades has been active, with some improvement in values, but on the whole prices have not been as good as those of last week, especially for the grades selling from \$10 to \$14. Frequent sales of good to fine leaf were made during the week at prices from \$14 to \$20 per hundred.

During the week the greater part of the State has had good rains, and the condition of the growing crop has been greatly improved in many localities.

There will be no sales on our market from the 1st to 15th of August. It is thought that this midsummer vacation will be to the advantage of the market, as it comes at a time when the stock of tobacco is unusually small and there is no necessity for continuous sales.

The following quotations fairly represent our market for burley tobacco (1897) crop:

Dark (dark or damaged)	\$ 3 00	4 50
Common color trash	5 00	6 50
Medium to good color trash	6 00	10 00
Common lugs, not color	8 00	8 00
Common color lugs	10 00	12 00
Common to medium leaf	9 00	14 00
Good to good leaf	14 00	16 00
Fine to fine leaf	16 00	18 00
Select wrapper leaf	18 00	26 00
